ABSS Accounting

Windows 11 Compatible

Integrated accounting, billing, and inventory management software

ABSS software avoids accounting jargon and is easy to use. Its award-winning design emphasizes smart workflows and guides you through your accounts' automation, making it easy to track all your accounting data.

InvoiceNow ready

Electronic invoicing (E-Invoicing) via PEPPOL network allows you to directly send and receive invoices between suppliers and buyers for domestic, international transactions and government bodies. Its main benefits:
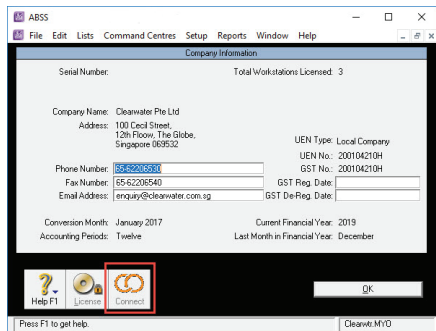

- Get paid faster (faster invoice processing, validation, and payment).
- Improve efficiency (avoid error-prone manual data entry and skip labour-intensive steps).

Integrated bank feed and bank payment

Enjoy integrated banking feature through ABSS Connect; a new platform that connects ABSS software to 3rd party platforms such as bank or government agencies.

- Sync daily bank feeds and process online payment to vendors.
- Reduce entry errors by automating parts of accounting and reconciliation process.
- Ability to review daily updated cash flow.
- Eliminate switching effort between accounting software and online banking portal.

* Active subscription of Upgrade Cover or Premium Cover is required.

Put your best stock forward

ABSS Accounting automatically adjusts your inventory as you sell items. Unlike most other systems, it goes the extra mile by giving you the flexibility and freedom when working with inventory transactions as you can:

- Recall
- Edit
- Reverse
- Delete inventory adjustments and transfers

Powerful reporting options also allow you to easily reconcile your stock on hand with your inventory account for any given date. ABSS Accounting also features a sophisticated pricing matrix with:
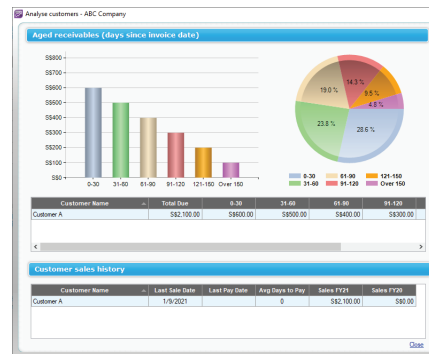

- Five quantity breaks and
- Six pricing level

This allows you to map out pricing and sale strategies based on customer status. If you sell items from different warehouses or hold stock in multiple locations, ABSS Accounting helps you keep track of items quantities held at each location.

Analyse business in more than 200 ways

Make informed decisions based on accurate and detailed information:

- Over 200 flexible reports and charts.
- Assess up-to-date Profit and Loss Statements and Balance Sheets.
- Produce comprehensive reports and send to Microsoft® Excel for further analysis.
- Email reports to your accountants.
- Use inbuilt Data Auditor to detect common processing errors and to ensure integrity of your business information.
- View screen-optimised or print-preview versions of each report.
- Analyse sales by salesperson, track where sales are coming from, and identify customers who owe money, stay on top of outstanding invoices and more.
